**YOUNG LEARNERS**  
**& WATER BABIES**

**MAY 2<sup>ND</sup> - JUNE 6<sup>TH</sup>**

**Birth-Age 3**

Water Babies is a great program to get your child accustomed to the water, where they'll spend time getting comfortable and having fun with parents!

**Ages 3-5 years old**

A great program for preschool and advanced preschool, designed to get the child accustomed to the water. This is a beginner class, starting with learning to put their faces in the water. All children will use a bubble float support.

The children will learn alternating arm action with support and put their head in the water. Supported kicking on front and back, roll over front to back, and jump in the water chest deep. Children will learn safety around the water and have a positive learning experience that will be a lasting life memory.
